

Feature:

- Silicone extrusion process, high color consistency, short lead-time
- Protection grade IP65, can be used indoors and outdoors
- Independent wire power supply, low voltage drop
- LED light source, low energy consumption, long lifespan
- Flexible body, furace corner is unlimited
- Without lead, mercury and other elements, green environmental protection
- Light is soft&uniform, without light points

Product parameters:

Product name	Low Voltage LED Neon Flex
Code	NFLM12X
Shell Material	SILICONE
Size	6*12 mm
LED type	SMD2835
LED Qty	108 pcs/m
CCT	4500K/6500K/Red/Blue/Green/Yellow/Pink
Warranty	2 years
Voltage	DC12V
Power	8W/m
Ambient temperature	-25~+45
Cutting unit	2.5cm per cutting
Standard reel	50M/reel
